Agreement concerning drivers and spectators:

Dog Mt. Key Holders and USHPA members are responsible for the safety and appropriate behavior of ALL individuals their key provides access to in gated areas. Drivers and spectators who are not USHPA members and / or have not signed USHPA waivers must be instructed to stay clear of gliders at all times. Appropriate spectator areas during hang glider launch operations are either inside the gravel loop or an equivalent minimal distance to the side of the launch in use. During paraglider operations, additional distance allowances must be made to ensure spectators will be clear of collapsing wings. In high wind situations, non-USHPA members should stay completely clear of launch operations and be advised that both piloted and unattended gliders could impact the launch area in an uncontrolled manner. Agreement concerning bald eagle habitat and hang gliding and paragliding at Dog Mountain, between The Washington Department of Wildlife, Port Blakely, the Cloudbase Country Club, and the individual pilot named below:

1. Dog Patch is open for hang glider and paraglider landings.
 2. All hang glider and paraglider pilots, (hereinafter called "pilots"), approaching a landing at Dog Patch shall do so from the lake side and make their downwind approach on the north side of the landing area, farthest away from the bald eagle's nest tree. They shall stay far to the West of the 100 (dike) road.
 3. The north field is open for hang glider and paraglider landings. 4. Pilots heading to the north landing field shall stay outside the no-fly zone as defined below.
 5. Pilots shall not "harm or harass" bald eagles as described by the U.S. Endangered Species Act and by the U.S. Bald and Golden Eagle Protection Act. All pilots shall be held responsible for their actions as individuals.
 6. A no-fly zone hemisphere of 1200 foot radius is designated around the bald eagle nesting tree (see maps) for the time period of February 1st through May 1st. if there is no nest building activity, and through August 15th if there is nest building activity. There shall be no restrictions after May 1st if there has been no nest building activity or nest use as determined by The Washington Dept. of Wildlife (hereinafter called "W.D.F.W."). There shall be no restriction between August 15th and February 1st.
 7. Pilots shall not approach any active eagles nest from the ground and shall report to the local W.D.F.W office any on-the-ground activity near any active eagle's nest. The W.D.W. phone number is (206)496-8223.
 8. Cloudbase Country Club shall report violations of this agreement to W.D.F.W. and shall discipline, using United States Hang Gliding Association procedures, any pilot found violating the conditions of this agreement. U.S.H.P.A disciplinary procedures include exclusion from using the Dog Mountain Launch and loss of USHPA rating.
 9. Dog Mountain launch is only open to those pilots who have signed this agreement.
 10. Failure to adhere to these site regulations will substantially affect our ability to maintain our lease with Port Blakely of Dog Mountain Launch. If you do not follow these regulations, then the entire hang gliding community risks losing this site.
- I will strictly adhere to all the conditions of the agreement and will not fly within the no-fly zone around the possible eagle's nesting tree.
